This notice is intended to provide details about the incident, steps we are taking in response, and resources available to help protect against the potential misuse of sensitive personal information.

What Happened? On September 18, 2023, ECHC detected unusual activity on our network. Upon discovery of this incident, ECHC immediately disconnected all access to the network and promptly engaged a specialized third-party cybersecurity firm to assist with securing the environment, as well as, to conduct a comprehensive forensic investigation to determine the nature and scope of the incident. The forensic investigation, which concluded on November 14, 2023 found evidence that some ECHC files were accessed by an unauthorized actor.

Based on these findings, ECHC began reviewing the affected systems to identify the specific individuals and the types of information that may have been compromised. Upon the completion of the review ECHC identified individuals who may have been impacted by this incident. Notice to these individuals was sent out by US Mail on May 8, 2024.

What Information Was Involved? Based on the investigation, information impacted for each individual varied but included: full name, address, medical information; health insurance information; credit card number; Social Security number; and Driver’s License. Information relating to each impacted individual is included in the notification letter mailed to them on May 8, 2024.

What We Are Doing? Data privacy and security is among ECHC’s highest priorities, and we are committed to doing everything we can to protect the privacy and security of the personal information in our care. Upon discovery of the Incident, ECHC moved quickly to investigate and respond to the Incident, assessed the security of its systems, and notified the potentially affected individuals. Specifically, ECHC disconnected all access to our network, implemented a credential reset, restored operations in a safe and secure mode, enhanced their security measures, and took steps and will continue to take steps to mitigate the risk of future harm. ECHC also implemented a security operation center (“SOC”) responsible for monitoring, detecting, responding to, and mitigating security threats and incidents across ECHC's information systems and networks. This includes, but is not limited to Proactive Threat Detection; Swift Incident Response; Round-the-Clock Vigilance; Risk Reduction; Security Intelligence; and Incident Investigation services.

Steps You Can Take to Help Protect Your Information

Credit Reports: You may obtain a copy of your credit report, free of charge, whether or not you suspect any unauthorized activity on your account. You may obtain a free copy of your credit report from each of the three nationwide credit reporting agencies. To order your free credit report, please visit www.annualcreditreport.com, or call toll-free at 1-877-322-8228. You can also order your annual free credit report by mailing a completed Annual Credit Report Request Form (available at <https://www.consumer.ftc.gov/articles/0155-free-credit-reports>) to: Annual Credit Report Request Service, P.O. Box 105281, Atlanta, GA, 30348-5281.

Fraud Alerts: You can place fraud alerts with the three credit bureaus by phone or online. A fraud alert tells creditors to follow certain procedures, including contacting you, before they open any new accounts or change your existing accounts. For that reason, placing a fraud alert can protect you, but also may delay you when you seek to obtain credit. As of September 21, 2018, initial fraud alerts last for one year. Victims of identity theft can also get an extended fraud alert for seven years.

Monitoring: You should always remain vigilant for incidents of fraud and identity theft by reviewing credit card account statements and by monitoring your credit report for suspicious or unusual activity.

Security Freeze: You have the right to place a security freeze on your credit report. A security freeze is intended to prevent credit, loans, and services from being approved in your name without your consent. To place a security freeze on your credit report, you need to make a request to each consumer reporting agency. You may make that request by certified mail, overnight mail, regular stamped mail, or by following the instructions found at the websites listed below. The following information must be included when requesting a security freeze (note that if you are requesting a credit report for your spouse or a minor under the age of 16, this information must be provided for him/her as well): (1) full name, with middle initial and any suffixes; (2) Social Security number; (3) date of birth; (4) current address and any previous addresses for the past five years; and (5) any applicable incident report or complaint with a law enforcement agency or the Registry of Motor Vehicles. The request must also include a copy of a government-issued identification card and a copy of a recent utility bill or bank or insurance statement. It is essential that each copy be legible, display your name and current mailing address, and the date of issue. As of September 21, 2018, it is free to place, lift, or remove a security freeze. You may also place a security freeze for children under the age of 16. You may obtain a free security freeze by contacting any one or more of the following national consumer reporting agencies:
